RE: FOIA SWPA-2013-01405-F

Dear Professor Kasdin:

This letter is in response to your Freedom of Information Act email request received August 1, 2013. You requested the historical records of the performance measures for the program in our agency.

A reasonable search was performed and no documents were found. We are a part of the agency Department of Energy. I have listed some web sites which may be useful for you.

The federal government's repository for agency performance is located at <http://www.performance.gov/>. DOE's information is located at <http://goals.performance.gov/agency/doe>.

More comprehensive performance metric data (2005-2011) is publically available on DOE's web site at <http://energy.gov/cfo/reports/annual-performance-reports>. Data prior to 2005 is not available.

The congressional budget submissions also contain performance metric data (2012-2014) in program volumes located at <http://energy.gov/about-us/budget-performance>

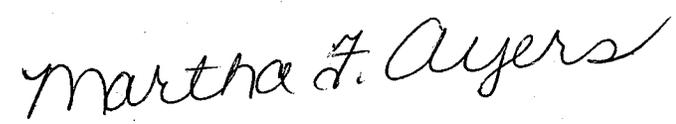

You also requested the online link for Southwestern Power Administration's strategic plan. It is listed below.

www.swpa.gov. It is located in the About the Agency Section.

I discussed the findings with Lindsay Brayton and she stated she will contact me if this is not what you were searching for and we can clarify the request.

If you are dissatisfied with this determination, you may appeal within 30 days from the date you receive this letter to The Director, Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, S.W., Washington, DC 20585. The appeal must be in writing and both the envelope and letter must be clearly marked "Freedom of Information Act Appeal."

If you have any questions about this letter, please contact me.
